Solution Approach

On Time Delivery

Our Infrastructure

We are one of the renowned and comprehensive manufacturers of Thermosetting powder coating powders in Kolhapur, Maharashtra, India with best in class lab facilities, storage facilities and easy to reach dealer networks spread across all over India to ensure better services all the time. We are well-equipped with all latest technology lab equipment, like Conical bend, Impact Tester, TQC Gloss-O-Meter, Positector Thickness Gauge, Spectrophoto Meter that are capable to deliver the products precisely conforming to all International standards like ASTM, ISO etc.

Ensuring Quality

At Fortunecoat, quality and excellence are company values. From raw material procurement, to your finished product, no process is completed without rigorous quality control testing. We test every batch online for colour, gloss, tests for film thickness, adhesion, uniformity, curing, impact resistance at specific frequency to insure homogeneity throughout the batch. In addition to checking every order, the QC sample panel accompanies each order. This industry leading process ensures our customers receive the highest quality powder coating

“ Offering Wide Range of
RAL Color Powder Coating Powder. ”

Our Core Ideology
